Electronic devices have made our lives so much faster, easier and convenient. The only shortcoming is that they tend to get discharged and needs an immediate power supply. Imagine one or more of your electronic device running out of battery at once. You may find yourself in a dilemma, thinking which device to charge first. We have found an ultimate solution to your problem. Charge your smartphone, tablet, iPad etc at once with the latest and revolutionary product SmartC by Huntkey.

SmartC is one of the finest and trendiest design by Huntkey. Power strips and extensions are useful but they tend to take up a lot of space. Keeping the concern in mind and applicability of the latest evolution of technology, we offer you SmartC. It is made up of superior quality and is a reliable product. In devices like these, compatibility issue is common and disappointing. But with SmartC, rest back assured because it offers extensive compatibility for almost all USB powered devices.

Electrical spikes and high voltage issues might damage the product, we ensure that Huntkey's devices have full safety coverage. This has added an aesthetic grace to our collection of products with its unique structure and sleek design. It can be used in both household and office setting giving out ample utilization.

Considering its worth, this product gives more output and exhibits exceptional functionality. One major selling factor of this product is its unbelievable portability. It is a very handy and compact product making it easier to port and travel with. It is available in both white and black color.
