**Shenzhen, China, May 30, 2020** – Huntkey, a leading provider of power solutions, announces the availability of its new monitor – [the N2001WA](#), a 19.5-inch monitor featuring a resolution of 1600 x 900.

The N2001WA is designed intended for traditional office use. It is equipped with a TN screen featuring an aspect ratio of 16:9 and a static contrast ratio of 600:1. Its brightness is 200cd/m<sup>2</sup> and it supports a high color gamut of 16.7M, which will allow the users to comfortably see in the darkest or brightest scenes and avoid color distortions.

It's black and integrated with a VGA input. It measures 465mm long, 210mm wide and 363mm high, and weighs around 2.1kilos. It is not a high-end monitor considering its configurations, however, it is cost-effective and a considerable choice for those price sensitive users.
